THE TAXABLE TO THE TA MINING, BUSINESS AND STOCKS.

THE WEEK ON THE EXCHANGE.

Transacted.

YANKEE CON. THE FEATURE | THE COLUMBIA IS IMPROVING

Advanced About \$1 Per Share Since Monday-Ajax Stronger Today-Grand Central is Climbing.

Business has been very active in stocks during the past week, and some sharp advances are recorded. The business transacted today amounted to 84,625 shares, which brought \$28,037.87. During the week 490,0311/2 shares were sold at the two daily calls which represented a selling value of \$262,492.52. Yankee Con, and May Day were the features of the week. The former was has since shot skyward at a meteoric pace, which has surprised everyone. Sales were reported as high as \$1,50 on the curb last night. It was traded in today from\$1.40 down to \$1.22. Day, which opened the week at 66, climbed to \$1.00 today though it afterwards weakened to 92. Mammoth has not been very active, but Grand Central weakened on news that a new trial was granted. On Monday it stood around \$7.15, but it later to \$6.25 though an advance is recorded today when it moved up to \$6.81, at which price 100 shares changed hands. Boss Tweed has fluctuated between 13 and 16, while Lower Mammoth, which weakened to \$4.36 during the week, was a little stronger today at \$4.47. Ingot has moved from 4½ up to 5%, while Petro was traded in at 18 today. Con. Mercur oscillates between \$3.30 and \$3.35, while Dalton & Lark was active today up to 71/2. Eagle and Blue Bell has weakened to 65. Martha Washington has fallen off a few cents during the week, while West Morning Glory closes the week firm at 4 cents. Ajax was much stronger today when it sold up to \$1.121/2, after weakening to \$1.00 earlier in the week. Daly-West appeared weaker today when only \$33.60 was bid. Closing quotations were posted as

THE PLANETARY MINE IS BONDED.

Over \$262,000 Worth of Business J. H. Clive Secures an 18 Month Option on the Property.

Copper Values Higher in the Winze-Bullion-Heck Meeting-Con. Mercur Dividend -Notes.

J. H. Clive and E. L. Godbe returned last night from Park Valley mining district, where they have been since Monday making an examination of the Planetary mine. Mr. Clive announced today that he had secured an 18 months' bond on the group and that he would start a small force at work on the 17th inst. The price is not stated, though it is known that it was bonded two years traded in at 45 cents on Monday, but it | ago for \$250,000, at which time it was examined by Anthony Godbe.

> The group consists of thirteen full claims and a fraction and is located about 11/2 miles from the Century mine, Three well defined veins cross the group and on one of these the Planetary company sunk a shaft some two or three years ago. The shaft is down 200 feet with a fine body of gold ore showing on the 100 level. Outside of sinking the shaft practically no work has been done. The vein has been crosscut from the shaft on the 100 level and proved to be between 40 and 50 feet wide, though of course, most of this carries little or no values. The present examination of the 100 level disclosed ore running as high as \$150 a ton in From that figure the assays gold. varied to a few dollars. Assays wer also obtained from the outcrop of the Rose vein which showed a little over \$7

per ton. In discussing the Century Mr. Clive says he was much impressed with the nine showing in the vein. The company put a new concentrating table in oper-ation on Monday, which is said to effect much better sving of the vlues. compnay now uses the plates, a con-centrating table and cyanide tanks,

making a very complete extraction. COLUMBIA IMPROVING.

C. H. Cook Reports Better Values in the Bottom of the Winze.

C. H. Cook, who is working the Columbia Copper company's property, came in from Bingham last evening. Mr. Cook is very much impressed with the possibilities of the great low grade camp, the more so since the Columbia is showing up so nicely with depth. The winze, which is down 133 feet below the tunnel level, has lately ex-posed much better ore than that developed above. The leasers are sending about twenty-five tons daily, but with milling facilities 200 tons might be handled quite easily each day. The hipments are made to the Rogers' mill where a charge of \$1.15 per ton is made for treatment. With a mill of its own Mr. Cook says the company could concentrate its ores for 40 cents a ton force of six men is engaged in the development of the property.

UTAH OIL COMPANY.

The Parafine Company Expects to Have Plant Running in 2 Months.

Special Correspondence. Provo, April 13,-Mr. John T. Clark of this city, informs the "News" cor-respondent that the Parafine Oil company, of Utah, in which he is a stockholder, expects to erect a plant for the extraction of oil on the company's mines in Dairy Fork, of Spanish Fork and that the works will be completed inside of two months. Mr. Clark is now selling some of the company's treasury stock for that purpose, and is meeting with fair success The company, whose headquarters are in Salt Lake, own 120 acres of oil-

bearing standstone, which contains 10 per cent hydro-carbon on the surface, and at 20 feet the hydro-carbon has increased to 15 per cent. The oil is easily extracted, and a \$5,-000 plant, such as the company expects to build, will have the capacity of extracting about 1,000 gallons a day. A test has been made in Salt Lake City

on a ton of the sand stone, which has brought the following result in oil. The values given are said to be wholesale

12 lb. paraphine wax, @ 9c. \$ 1.08 9½ gallons spindle oil, @ 35c. . 3.32 19 gallons lubricating oil, @ 42c. 7.98

Total value of products \$12.38 The cost of mining and refining is said to be only \$1.82 per ton, leaving a profit of \$10.56, which should make the property very valuable when it is considered that there is an almost un-limited quantity of the oil producing

Northern Light Meeting.

The presence of Supt. I. A. Jones of the Northern Light, in town was the signal for an informal gathering of the frectors of the company yesterday at day, President Hanauer said that th mine was reported to be looking very well. Two cars of good ore are awaiting shipment at the mine, and these, Mr. Hanauer says, will be sold before the end of the month, or as soon as the roads are good. No plan was decided on as to the method of procedure durng the coming season, but some of the rectors, in company with an expert the proposition early next month when lans for the future development of the property will be laid.

Changes in Bullion Beck Board. Ten cars of ore were on the market oday from the Bullion Beck of Tintic Mr. Farnsworth says the mine is Im-proving as the work of development progresses. A meeting of the directors called for Monday afternoon. which some special business will be transacted. The death of Hon. George

dent of the company, and also act as treasurer and P. T. Farnsworth Jr. will be made a director of the company

Con. Mercur Meeting. The directors of the Con, Mercur are scheduled to meet on Monday af-ternoon at 3 o' clock at which time action wil be taken on the first quar-President Cohen, who represents Captain De Lamar in the directorate

s exjected to arrive tomorrow from San Francisco. A great deal of speculation is being indulged in regarding the size of the dividend. It is thought that it will not be less than \$150,000, though there is in the minds of some people a strong probability that the company will declare a quarterly divi-dend of \$200,000 or 20 cents a share. No dividends have been paid for six months and as the net proceeds have run between \$60,000 and \$80,000 a month in that time it is thought the company may declare a dividend of 20 cents a

Boston Copper Quotations.

Today's quotations on the Boston market show a marked advance in Santa Fe, which sold up to \$9.75. Boston Con closed with \$4.62½ bid, while Bing-ham was quoted at \$26. United States stood firm at \$19.62. Centennial Eureka was practically unchanged at \$32, while Utah Con, was quoted at \$35.50. No quotation was received on Con. Mercur

Salmon Coal Strike Improving. The location and development of the

coal mines about Salmon continue to resent new and startling discoveries, and a visit to the scenes of operation convinces one that the discoveries are of great economic value, says the Salmon City Herald. One week ago what seemed but a transitory excitement is today a solid body of coal, which will require an analysis to prove that it is not bituminous. In appearance it re-sembles the best coal of commerce. At the mines of F. M. Pollard which showed only a few inches of coal, the seams have some together, until now there are four distinct coal bodies, measuring 12 to 18 inches in thickness, each having an interspace of about four inches of carboniferous shale. In all there are about 4" feet of coal which can be advantageously saved, and it looks as if the shale is disappearing as the work advances. No careful analysis of the product has been made, but all tests as to its combustible qualities have proven highly satisfactory. For

MINING NOTES.

domestic purposes, and for blacksmithing, the coal is all that could be de-

The Morning Glory, of Tintic, marketed a car of ore today. Fifteen cars of concentrates were re-

ported today from the Ophir Hill. Monday being Arbor Day there will be no "call" on the mining exchange. A car of ore from the Excelsior, of Eureka, Nev., was on the market to-

Charles L. Rood is now in charge of the Ontario and Daly Mining company's affairs at this end of the line.

day.

The Dexter-Tuscarora company will have another shipment of bullion and cyanides on the market next week.

The Taylor-Brunton sampler reported eleven cars of ore from Tintle, fifteen from Stockton and one from Nevada

Willard Smith expected to visit the West Morning Glory at Tintic tomor-row. The bottom of the shaft is now approaching the 250 level.

In spite of the rise in the stock today the secretary of the Ajax announced that no change had taken place at the mine, though something is expected Two cars of copper ore reached town

today from the Cygnet company's property at Stockton. This is the initial shipment of its kind. The ore shows azurite of copper with carbonate of A formal conveyance has been made of the Nast Mining and Milling com-pany's property to the New England

Gold & Copper Mining company, for \$1,000,000—the amount of the latter company's capitalization. Prof. Wiswell came up last night from the Petosky company's property in Coconino county, Arizona, where he

has been engaged in leaching copper ore. He reports a very cheap and effectual extraction of copper values eby this method. E. P. Jennings says that bids are beng received for the construction of the leaching plant at the Coconino com-

pany's property in Coconino county

Arizona, though, owing to the fact that the machinery is all of new design some delays are being experienced. The plant will be built this season. Price Advocate: C. P. Johnson has been here several days from Green River. He says there has been a num. ber of experts down there looking after oil lands, but the most of them so far have been of the Salt Lake City jaw-

bone promoting brand and are not calculated to do any country much good. The Globe Mining company yesterday filed articles of incorporation in the office of the county clerk with a capital stock of \$25,000, divided into 500,000 shares. The officers are F. Eberhardt, president: E. D. Woodruff, vice-presient; Joseph Marley, secretary; G. H. Marley, treasurer, who, with C. Smith compose the directorate. The ompany owns the Buckhorn and six ther mining claims in the Park Valley

district in Boxelder county. Mill Superintendent Fred W. Shernan of the Daly West is in Butte. The Butte Miner says Mr. Sherman has had considerable mining experience in Monana, especially in the Philipsburg dis-He was a resident of Montana early twenty years, and helped to lay out the townsite of Anaconda, Mr. Sherman will visit Anaconda today to look over the smelters and especially to investigate the results of some milling exeriments that have recently been made

Price Advocate: Charles A. Hyde has ncovered a very fine bed of extra good narble in Emery county, and which he tells The Advocate is about twenty miles from a railroad. There are three grades of it, pink white and birdseye cray. He is offered by a Salt Lake firm \$7 a cubic yard for it, but believes that will be worth more after it has been There are three layers of it rom twenty to thirty-five feet each. He has three men at work on the discov-ery, but this force will be increased

OPENING PRICES WERE UP.

Publication of Bank Statement Followed by Spurt in Many Stocks.

Lively Selling Movement to Take Profits Met the Advance - Heavy Sale of Eric.

New York, April 13 .- Prices rose on the opening sales on the stock exchange, gains extending from 1 to 2 points in Burlington, Consolidated Gas, Rock Island, the Chicago Terminal Transfer stocks and People's Gas. Ten thousand shares of Erie sold at 38% to 28%, compared with 38% last night. Prices relaxed after the opening, but scale buying orders were not on the decline, and the market recovered to well above the opening prices. The Grangers and Northern Pacific showed the most strength, the advances extending to 3% in Rock Island. Realizing in Burlington wiped out its 2 point gain before 11 o'clock, and somewhat unset-tled other stocks. The speculation showed constraint pending the appearance of the bank statement. There was a rise of 2½ in Sugar, 2¾ in North American, and 8 in Colorado Fuel, but the general market was inclined to sag. The publication of the bank statement was followed by a spurt to 1.561/2 in Rock Island, and advances of 1 to 2 in number of miscellaneous stocks. lively selling movement to take profit met the advance and carried back Colorado Fuel 5, and Rock Island. Sugar, Burlington and some other stocks from 1 to 2 points. Rock Island was pushed up again by pool manipulation to 1.56%, and room shorts cov-ered elsewhere, making the close active and irregular.

The election on Tuesday is NOT to increase the taxes. BUSINESS NOTES.

The local commercial stock and bond market has been quite active during the week. Broker Cutler's circular states: "Quite a number of small blocks of different securities changed hands, while the demand for Utah Sugar Co. stock was heavy. During the early part of the week the stock sold for \$16.75 to \$16.80 per share, but as the week advanced, there were so many orders, that the stock was forced up to \$17.00, and I sold about 400 shares at that figduring the past two days. The large holders, as a rule, are not dispos-ing of their stock; but instead, buying to make their blocks even, but quite number of small stockholders have realized.'

A feature of the week has been the decision of the Co-op Wagon and Ma-chine company to enlarge its capital from \$300,000 to \$500,000 and the official notice, calling a meeting of the stock-holders to pass on the question, appears in the "News." The management of the company state that the purpose is to raise enough money to retire the entire floating indebtedness of the ompany. The new stock will be pro rated among the present owners and will be entirely taken up by them. One of the board states that the increase of the capital will make no difference in

the rate of dividends. The board of directors of the Utah Sugar company will meet on Tuesday Monday, the regular date, being a holi-The election of the president, vice president, manager, secretary and treasurer will come before the board. late Hon George O Cannon has filled the position of president ever since the death of Elias Morris, the original president of the company.

REALTY AND BUILDING. The contract for wiring the new Deseret News building has been let to

trician. John N. Sharp has bought out half-interest in the McConahay jewelry business. The amount of the consideration was not given out. The firm will in the future be known as the McConahay-Sharp Jewelry company, Mr. Sharp has been employed in the Descret bank as exchange clerk for the past twelve years. His many friends wish him

Thomas G. Allen, the well known elec-

prosperity in his new enterprise. Plans for a Latter-day Saints' church to be erected this summer at South Jordan, are in the hands of Architect Neuhausen. It will be a brick structure, with stone trimmings and foundation, and will be 110x41. It will be graced with a handsome tower over the front.

E. W. Druce, the contractor, today said: "Regarding the strike of two men on my premises a week ago, at the corner of J and First streets, I desire to state that no responsibility at taches in any way to Mr. W. W. Riter Such blame as there is belongs to me and me alone. There has been no strike in connection with any building that Mr. Riter has under way, so far as I know, and the people who are blam-ing him do not know what they are talking about. The responsibility rests on my shoulders, and that should end

C. B. Hawley, manager of the Utah Electrical & Supply company, when spoken to by the "News" today regarding a report to the effect that his firm had been "pulled off" by the union from wiring six houses, under course of con-struction, on Fourth East street, beween Fourth and Fifth South, by Granville Gillette, replied: "The re port is untrue. We have the contract for wiring these houses, but are not yet ready—that is, the houses are not yet ready—that is, the houses are not yet ready for us. There has been talk, of course, about all electricians being taken off jobs where non-union men are employed, but we anticipate no trouble whatever. Such differences as exist, we feel confident will be fully and satisfactorily settled on Wednes-

WEEK'S CLEARINGS.

This week's clearings show an in or the same week last year. The two amounts are as follows: Same week last year..... 2.641,927.75 Today's clearings compared with those of the same day of last year are

Same day last year...... 302,534.81 The question to vote upon on Tuesday is, shall the Board borrow the money to keep the schools going for the rest of the term.

TONE OF GENERAL BUSINESS BETTER

The Market is Active in Distribution of Merchandise.

GOVERNM'T WHEAT REPORT

ls Good and Presages Prosperity-Speculating in Food Stuffs Unusually Heavy.

New York, April 12.-R. G. Dun's Weekly Review of Trade will say tomorrow: The tone of general business has been better this week. Market activity in the distribution of merchandise is reflected in the gain of 45.9 per cent in bank clearings at New York, compared with 1900, and 20,8 per cent over 1899, with gains of 13,5 and 10.8 for the same period at leading cities outside New York, Even the textile markets show pronounced gain in activity and the metal division has taken pig fron production to near record figures and some dealers do not see how production of partly finished forms this year is to be made to meet the demand. The government report of the condition of wheat on April 1 is the surest possible basis upon which expectation of continued commercial prosperity could be founded. Stringency of money is largely local in New York and does not alter reports from most of the larger cities of favorable conditions in collections. Railroad earnings in March were 7.4 per cent larger than last year and 32.4 per cent over 1899, according to practically complete returns.

Pig iron production on April 1, according to the Iron Age, was at the rate of 296,676 tons weekly. This quanrate of 296,66 tons weekly. This quantity has been exceeded twice in the history of the industry, on Dec. 1, 1899, when 296,959 tons were produced, and on Feb. 1, 1900, when the output was 298,014 tons. The remarkable feature of the situation is the decrease of 69,568 tons in furnace stock decrease. tons in furnace stock during March in the face of this enormous production, while in six months the loss in supplies amounted to 203,656 tons. Quotations are generally steady for all forms except plates, on which \$2 a ton more is demanded without restricting pur-chases. Contracts for delivery of pig fron don't as a rule extend beyond this month and furnace stocks cannot be expected to continue decreasing unless new business comes forward, for many furnaces have gone into blast since the month opened and production on May will probably be at a new high record, Speculation has been unusually heavy in food stuffs, the local market averaging over 2,000,000 bushels of wheat daily. Prices receded sharply from the op point of two weeks ago, wheat losng about 4 cents for spot. Realizing es were accelerated by expectation of a high percentage of winter wheat condition in the official report. elements of strength appeared to check the decline and caused some recovery. Insects were reported numerous in the outhwestern section and foreign buying was sufficient to make Atlantic ex-ports, flour included, 6.732,000 bushels

n two weeks, against 3,912,857 last year ind 3,890,380 in 1899. In silk goods more activity is reported, and another triffing advance occurred in raw materials. Failures for the week numbered 203 in the United States, against 193 last year, and twenty-four in Canada, against forty-one lst year.

Nearly every person needs a tonic nedicine at this time of year to brace up and invigorate the nervous system o cleanse the bowels, liver and kidneys. HERBINE is the best and safest remedy to do this, as it will cure constipation, regulate the liver and enrich the blood. Price, 50 cents at Z. C. M. I. Drug Dept.

MELVIN D. WELLS, Secy. & Treas.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF Figs, manufactured by the CALIFORNIA FIG SYRUP Co., illustrate the value of obtaining the liquid laxa-tive principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the California Fig Syrup Co. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.
